THE KOREAN TAEKWON-DO DEMONSTRATION TEAM TO HAVE FIRST EVER TOURS TO USA

The DPRK Taekwon-Do Demonstration Team is first ever scheduled to have its splendid and magic performances in the big and major cities in USA including Los Angeles, San Francisco, Atlanta from 4th to 16th this coming October.

The Team particularly plans to show its first demonstration at the renowned stadium located in Hollywood and it will be airing by the CBS TV Channel to the world.

These tours are jointly supported by the Worldwide Magazine "Taekwon-Do Times" with GM Woo Jin JUNG as President and the Hwang Taekwon-Do Academy with GM Jung Ho HWANG as President.

As you are well aware, as far as the developments and populations of Taekwon-Do are concerned, USA is regarded one of the biggest countries regardless of the Taekwon-Do kinds and, therefore, the leaders of Taekwon-Do in this globe are at present paying the great attentions to the activities of Taekwon-Do in USA.

Needless to say, it would be the good opportunity to boost the original Taekwon-Do and demonstrate the superiority and power of ITF throughout the States.

The organizers informed us that the peoples not only from the field of Taekwon-Do but also from all kinds of Martial Art in USA and the neighboring countries like Canada and Argentina are extremely excited to welcome the DPRK Taekwon-Do Demonstration Team.

THE 3RD INTERNATIONAL MARTIAL-ART GAMES AND ITF

ITF has announced at its 17th Congress held in Slovenia that the 3rd International Martial-Art Games (IMG) will be held in Bangkok, Thailand on 12-16 April 2008.

The plenty of Martial Art Organizations came to learn through the 2 times IMG held in 2004 and 2006 that IMGC is of the precise International Body to lead all the martial arts disciplines existing on this planet into the future in keeping with its spirits and philosophy and have actively and entirely been supporting the idea and purpose of IMGC.

As well known to the world, the IMGC has been initiated by late Gen. Choi Hong Hi and inaugurated in Argentina in Sep. 1999 amidst the strong supports by the ITF members, and we consequently call it son of Gen. Choi.

Owing to this historical fact, it is considered our duties and obligations to make it stronger and stronger in the near future.

To be honest, we can say IMGC has the solid and dynamic foundation to move forward and grow fast but, unfortunately, we, ITF, made the less contribution to the developments of IMGC in the past, comparing to other martial arts disciplines.

You are all requested through this occasion to show your utmost contribution to the developments of IMGC by attending the above-mentioned Games.

YEARLY PLAN TO BE FORWARDED TO ITF HQ

ITF HQ would like to remind all the NGBs, on this occasion, to forward your yearly plan for 2008 to us by the end of November this year.

We wish all competitions and events would be conducted in the professional way under the coordination and supervision of ITF.

If you do not respond to this request in time, ITF would not be responsible for it.
