In keeping with the development of the ITF a company has been formed to manufacture equipment. It is planned to develop this company as a multi purpose concern. The potential is enormous and therefore **all ITF members are being offered the opportunity to invest in this company**. It is thought that the initial investors will buy shares and that 1 certificate will cost US\$5,000.00 and this certificate would have 9000 shares. As the company is registered in Singapore as a private limited company there can be only 50 members in the beginning but this will be expanded later. Anyone who is interested should contact the ITF Office in Vienna.
